Welcome

Dear Friends, Dear Colleagues,

The team of the Belgium Registry and Reference Centre for Trophoblastic Diseases, together with the Department of Gynaecology and Obstetrics of Liege University, are pleased and honoured to host the third edition of the EOTTD annual meeting.

This year, the meeting will include:

- a full educational day focused on the placenta, meeting interest of i.e. gynaecologists, pathologists, oncologists, biologists, ...
- a EOTTD workshop day.

All aspects including normal and abnormal placentation, hCG biology, trophoblastic pathology, genetics and clinics will be covered by the most relevant and acknowledged experts in the field!
